UGANDA CHRISTIAN UNIVERSITY

DEPARTMENT OF COMPUTING AND TECHNOLOGY

STRUCTURED PROGRAMMING

Activity – Arrays

Instructions:

- Submission deadline: 28th / 07/ 2023, Midnight

- This is individual work

- Save your work in a folder labelled with your name the upload it on Moodle page

Question: (25 marks)

The lecturer of Understanding the Old Testament has student results showing three done assignments and a column for the average score. The lecturer says that the average score will be considered the coursework mark of the students. The results look something like the table below;

No	Name	Assignment 1	Assignment 2	Assignment 3	Average Score
1	Namakula Resty	78	80	66	

Requirement;

Using the knowledge of arrays, write a program which calculates the average score for each student and displays the information in this format/style. Your program should have a minimum of 10 students.
